- ✓ The suppliers are particularly concerned with the costs and financial impact of the Utah State Construction Registry and changes to the lien law and commercial laws which increase operational costs.
- ✓ Suppliers are concerned with the impact of the Utah State Construction Registry and the numerous technical rules related to the registry.

-
- ✓ There are annual proposals and changes to the lien, bond and other construction laws by the Utah Legislature, the Association will work with the legislature and other members of the construction industry to monitor, revise and/or mitigate the impact of legislation.
